STANDARD TERMS AND CONDITIONS

Article 1. PURPOSE OF AGREEMENT

This Agreement is between The Global Fund to Fight AIDS, Tuberculosis and Malaria, a foundation established under the laws of Switzerland (the “Global Fund”) and the Principal Recipient identified in block 2 of the face sheet of this Agreement. This Agreement defines the terms and conditions under which the Global Fund may provide funding to the Principal Recipient to implement the program whose title is set forth in block 3 of the face sheet of this Agreement (the “Program”) for the country specified in block 1 of the face sheet of this Agreement (the “Host Country”).

Article 2. IMPLEMENTATION OF THE PROGRAM

- (a) Program Description and Objectives. The Principal Recipient shall implement the Program as described in the “Program Implementation Description” included as Annex A of this Agreement. The “Performance Framework(s)” attached to Annex A of this Agreement set forth the main objectives of the Program, key indicators, intended results, targets and reporting periods of the Program. Unless otherwise indicated, the targets set forth in the Performance Framework(s) attached to Annex A of this Agreement are cumulative and do not include the baseline values.
- (b) Program Budget. The “Summary Budget(s)” attached to Annex A of this Agreement set(s) out approved expenditures for the Program Term. The Principal Recipient shall implement the Program in accordance with the Summary Budget(s). Changes to the Summary Budget(s) shall only be made pursuant to written guidelines provided by the Global Fund or as otherwise authorized in writing by the Global Fund.

Article 3. PROGRAM TERM

- (a) Phase 1. The Principal Recipient acknowledges that, as of the effective date of this Agreement (referred to in Article 38 of this Agreement), the Global Fund has committed funds to the Program under this Agreement for a 24 month period which starts on the Phase 1 Starting Date (indicated in block 5 of the face sheet of this Agreement) and ends on the Phase 1 Ending Date (indicated in block 6 of the face sheet of this Agreement) (hereinafter, the “Program Term”).
- (b) Phase 2. The Global Fund may decide, in its sole discretion, to extend the Program Term beyond the Phase 1 Ending Date and commit funding for Phase 2 of the Program (a “Phase 2 Approval”). If the Global Fund issues a Phase 2 Approval, the parties shall execute an amendment to this Agreement and the “Program Term” shall be extended to the Phase 2 Ending Date (indicated in block 7 the face sheet of this Agreement) or any other date specified by the Global Fund in its Phase 2 Approval.
- (c) Deemed Disbursement. The Phase 1 Starting Date, the Phase 1 Ending Date and the Phase 2 Ending Date will be determined by the date on which the Principal Recipient receives the first disbursement of Grant funds under this Agreement or as otherwise agreed between the Parties. For that purpose, the Principal Recipient shall be deemed to have received the first disbursement seven calendar days after the Global Fund Trustee issues a wire transfer for such disbursement into the Principal Recipient’s bank account (the “Deemed Receipt Date”). If the Deemed Receipt Date is between the first and the fourteenth day of the month, the Phase 1 Starting Date shall be the first day of that month. If the Deemed Receipt Date is after

the fourteenth day of the month, the Phase 1 Starting Date shall be the first day of the following month.

- (d) Notice. After the Deemed Receipt Date, the Global Fund shall provide notice to the Principal Recipient of the Phase 1 Starting Date, the Phase 1 Ending Date and the Phase 2 Ending Date and the face sheet of this Agreement shall be updated accordingly.

Article 4. GRANT FUNDS

The Global Fund hereby grants to the Principal Recipient an amount not to exceed that stated in block 8 of the face sheet of this Agreement (the "Grant"), which may be made available to the Principal Recipient under the terms of this Agreement. The Principal Recipient is responsible for the acts and omissions of its Sub-recipients in relation to the Program as if they were the acts and omissions of the Principal Recipient.

Article 15. PROGRAMMATIC PROGRESS REPORTS

- (a) Provision of Reports. The Principal Recipient shall provide to the Global Fund the reports specified in paragraph (b) of this Article. In addition, the Principal Recipient shall provide to the Global Fund such other information and reports at such times as the Global Fund may request. Guidance on the form of this report is available upon request from the Global Fund.
- (c) Use of Reports. The Principal Recipient also acknowledges and agrees that the Global Fund may use, reproduce, modify and/or adapt information and other data contained in such reports for any reason whatsoever.

Article 16. MONITORING AND EVALUATION

The Principal Recipient shall monitor and evaluate the progress of the Program toward its objective, including the activities implemented by Sub-Recipients, in accordance with the monitoring and evaluation plan approved by the Global Fund. The Principal Recipient shall ensure that it receives quality data regarding such progress and report accurately on the Program results.

Article 17. EVALUATIONS BY THE GLOBAL FUND

The Global Fund may, in its sole discretion, conduct or commission evaluations of the Program, or of specified Program activities, implementing structures or other Program issues. The Global Fund shall specify the terms of reference for any evaluation and an appropriate schedule for conducting it. The Principal Recipient shall, and shall require Sub-recipients to, facilitate the evaluation. Exercise by the Global Fund of this right does not mitigate the obligation of the Principal Recipient to monitor and evaluate the Program.

International Conference on Harmonization of Technical Requirements for the Registration of Pharmaceuticals for Human Use (ICH) is an initiative involving regulatory bodies and pharmaceutical industry experts that was established to make recommendations on ways to achieve greater harmonization in the interpretation and application of technical guidelines and requirements for product registration. ICH member countries are specified on its website: <http://www.ich.org>.

Medicine means an active pharmaceutical ingredient that is intended for human use.

National Drug Regulatory Authority (NDRA) means the official authority regulating Health Products in a country.

NDRA-Recognized Laboratories means Quality Control laboratories selected by NDRA according to their standards to conduct their Quality Control testing for Finished Pharmaceutical Products.

Pharmaceutical Inspection Cooperation Scheme (PIC/S) means the Swiss association of inspectorates which provides a forum for GMP training. The PIC/S is not subject to any international or domestic regulations. PIC/S member countries are specified on its website: www.picscheme.org.

Product Formulation means an active pharmaceutical ingredient (or combination of ingredients), dosage form and strength.

Quality Control means all measures taken, including the setting of specification sampling, testing and analytical clearance, to ensure that starting material, intermediate, packaging material and Finished Pharmaceutical Products conform with established specifications for identity, strength, purity and other characteristics.

Stringent Drug Regulatory Authority means a regulatory authority which is (a) a member of the ICH (as specified on its website); or (b) an ICH Observer, being the European Free Trade Association (EFTA), Health Canada and WHO (as may be updated from time to time); or (c) a regulatory authority associated with an ICH member through a legally binding mutual recognition agreement.

WHO Prequalification Programme means the programme managed by WHO which prequalifies (a) Medicines that are considered to be acceptable for procurement by the United Nations and specialized agencies; and (b) Quality Control laboratories for Medicines.

- (b) Health Product Management Assessment and PSM plan. Due to the complexity and significant risks of the procurement of Health Products, Grant funds may not be used to finance such procurement until:
- i. the Global Fund has assessed the Principal Recipient's capability to manage such procurement; and
 - ii. the Principal Recipient has submitted to the Global Fund, in form and substance satisfactory to the Global Fund, a plan for the procurement, use and supply management of Health Products that is consistent with this Article, (the "PSM Plan").

The Global Fund shall advise the Principal Recipient in writing whether it has approved the PSM Plan. The Principal Recipient shall ensure that the procurement and supply management of Health Products under the Program is carried out in accordance with the approved PSM Plan. The Principal Recipient must submit any proposed changes to the approved PSM Plan to the Global Fund for approval.

- (c) List of Medicines to be Procured. Grant funds may only be used to procure a Medicine that appears in the current Standard Treatment Guidelines (STG) or Essential Medicines Lists (EML) of the WHO, the Host Country government or an institution in the Host Country recognized by the Global Fund. The PSM Plan shall include the STG/EML that will apply to the Program.

The Principal Recipient shall submit a technical justification to the Global Fund if it intends to procure a Medicine that (i) was not specified in the grant proposal approved by the Global

Fund; and (ii) is included in the relevant STG/EML of the Host Country government or an institution in the Host Country recognized by the Global Fund, but not included in the STG/EML of the WHO, or vice versa.

- (d) Procurement Responsibilities. In circumstances where the Global Fund has determined that the Principal Recipient possesses the requisite procurement capacity, the Principal Recipient shall be responsible for all procurement under the Agreement, and at its discretion, may use, or permit its Sub-recipients to use, contracted local, regional or international procurement agents to conduct procurements. If the Global Fund has determined that the Principal Recipient does not possess the requisite procurement capacity, the Principal Recipient shall use established regional or international procurement agents or other mechanisms acceptable to the Global Fund, but shall remain responsible for compliance of all procurement with the terms of this Agreement.

When a Sub-recipient carries out procurement of Health Products, the Principal Recipient shall ensure that such procurement is carried out in compliance with this Agreement.

In all cases, the Principal Recipient is encouraged to use, or cause Sub-recipients to use, capable regional and global procurement mechanisms wherever pooling of demand reduces prices for products and improves procurement efficiency.

- (e) Procurement Practices. The Principal Recipient shall ensure that the procurement of Finished Pharmaceutical Products under this Agreement adheres to the Interagency Operational Principles for Good Pharmaceutical Procurement. In cases where actual practices differ from these principles, the Principal Recipient shall demonstrate to the Global Fund that it has established a comparable system of competitive, transparent and accountable procurement using a group of pre-qualified suppliers and the application of necessary quality assurance mechanisms.

In addition, Principal Recipients shall ensure that the procurement of Finished Pharmaceutical Products under this Agreement complies with the principles set forth in the Interagency Guidelines: A Model Quality Assurance System for Procurement Agencies (as amended from time to time).

- (f) Lowest Possible Price. The Principal Recipient shall use good procurement practices when procuring Health Products, including competitive purchasing from pre-qualified manufacturers and suppliers, as outlined in sub-section (e) above, to attain the lowest possible price of products that comply with the quality assurance standards specified in this Agreement. In determining what constitutes the “lowest possible price”, the Principal Recipient may take into account the unit price for the products, product registration, the delivery and insurance costs, and the delivery timeframe and method. With respect to durable products, the lowest possible price shall take into account the total cost of ownership, including the cost of reagents and other consumables as well as costs for annual maintenance.
- (g) Quality Standards for all Finished Pharmaceutical Products. Grant funds may only be used to procure Finished Pharmaceutical Products that have been authorized for use by the National Drug Regulatory Authority in the Host Country where the products will be used.
- (h) Additional Quality Standards for Antiretroviral, Antimalarial and/or Antituberculosis Finished Pharmaceutical Products. In addition to the quality standards specified in sub-section (g) above, Grant funds may only be used to procure antiretroviral, antimalarial and/or

antituberculosis Finished Pharmaceutical Products that meet one of the following quality standards:

- i. the product is prequalified under the WHO Prequalification Program or authorized for use by a Stringent Drug Regulatory Authority; or
- ii. the product has been recommended for use by the Expert Review Panel, as described in paragraph i of sub-section (i) below.

Such products may only be procured with Grant funds in accordance with the selection process specified in sub-section (i) below.

- (i) Selection Process for Procuring Antiretroviral, Antimalarial and/or Antituberculosis Finished Pharmaceutical Products.
 - i. If there are two or more Finished Pharmaceutical Products Available for the same Product Formulation that are either prequalified by the WHO Prequalification Programme or authorized for use by a Stringent Drug Regulatory Authority, the Principal Recipient may only use Grant funds to procure a Finished Pharmaceutical Product that meets either of those standards.
 - ii. If a Principal Recipient determines that there is only one or no Finished Pharmaceutical Product Available that is prequalified by the WHO Prequalification Programme or authorized for use by a Stringent Drug Regulatory Authority and it wishes to use Grant funds to procure an alternate Finished Pharmaceutical Product, it must request confirmation from the Global Fund that the Principal Recipient's determination is accurate and that the alternate Finished Pharmaceutical Product is currently recommended for use by the Expert Review Panel. If the Global Fund provides this confirmation, the Principal Recipient may enter into a contract with a supplier for the procurement of the alternate Finished Pharmaceutical Product that has been recommended for use by the Expert Review Panel at any time until the end of the ERP Recommendation Period, but the duration of the contract shall not exceed 12 months. That is, the Principal Recipient may not place an order for that Finished Pharmaceutical Product under the contract more than 12 months after the contract is signed.
- (j) Quality Standards for Long-Lasting Insecticidal Mosquito Nets. Grant funds may only be used to procure long-lasting insecticidal mosquito nets that are recommended for use by the WHO Pesticide Evaluation Scheme.
- (k) Quality Standards for All Other Health Products. Grant funds may only be used to procure Health Products other than Finished Pharmaceutical Products or long-lasting insecticidal mosquito nets, if they are selected from lists of pre-qualified products, if any, and comply with quality standards applicable in the Host Country where such products will be used, if any.
- (l) Monitoring Supplier Performance. The Principal Recipient shall monitor the performance of suppliers with respect to the quality of the goods and services they supply and shall submit the information gathered to the Global Fund electronically for publication over the Internet through the Price and Quality Reporting mechanism referred to in sub-section (r).

(m) Monitoring Product Quality. The Principal Recipient shall have systems in place to monitor the quality of Health Products financed under this Agreement that are acceptable to the Global Fund.

(n) Quality Control Tests of Finished Pharmaceutical Products

i. Subject to paragraph ii below, the Principal Recipient shall ensure that random samples of Finished Pharmaceutical Products financed under the Agreement are obtained at different points in the supply chain, from initial receipt of the products in the Host Country to the delivery of those products to patients. Such samples shall be sent to one of the following laboratories for Quality Control testing:

(a) a laboratory prequalified by the WHO Prequalification Programme;

(b) an NDRA or NDRA-Recognized Laboratory that meets one of the following criteria:

(i) Prequalified by WHO Prequalification Programme, or

(ii) Accredited in accordance with ISO17025; or

(c) a laboratory contracted by the Global Fund.

Such Quality Control testing may be conducted in accordance with protocols and standard operating procedures prescribed by the Global Fund, as may be amended from time to time.

The Principal Recipient shall submit the results of the Quality Control tests to the Global Fund, which may be made available to the public.

ii. If a Principal Recipient procures a Finished Pharmaceutical Product that has been recommended for use by the Expert Review Panel, the Global Fund will make the necessary arrangements for randomly selected samples of the Finished Pharmaceutical Product to be tested for Quality Control purposes, in accordance with advice provided by the Expert Review Panel, prior to the shipment and delivery of that product by the manufacturer to the Principal Recipient or other designated recipient. The Principal Recipient shall ensure that its contract with the manufacturer affords the Global Fund right to (a) obtain the manufacturer's specifications; (b) remove samples of products and conduct random Quality Control testing while the products are within the possession of the manufacturer; and (c) make the results of such testing public. The cost of any such sampling and testing of the Finished Pharmaceutical Product shall be borne by the Global Fund.

(o) Supply Chain and Inventory Management. With regard to the supply chain for Health Products financed under the Program, the Principal Recipient shall seek to ensure optimal reliability, efficiency and security.

The Principal Recipient shall comply with, and shall ensure that its Sub-Recipients comply with the WHO Guidelines for Good Storage Practices and Good Distribution Practices for Pharmaceutical Products. The Global Fund may approve deviations from such guidelines if the Principal Recipient can demonstrate to the Global Fund that comparable systems have been implemented to manage the storage and distribution of Finished Pharmaceutical Products procured with Grant funds.

(p) Avoidance of Diversion. The Principal Recipient shall implement and ensure that Sub-recipients implement procedures that will avoid the diversion of Program-financed health

products from their intended and agreed-upon purpose. The procedures shall include the establishment and maintenance of reliable inventory management, first-in first-out stock control systems, internal audit systems, and good governance structures to ensure the sound operation of these systems.

- (q) Adherence to Treatment Protocols, Drug Resistance and Adverse Effects. The Principal Recipient shall implement mechanisms to:
- i. encourage patients to adhere to their prescribed treatments (which mechanisms shall include but not be limited to fixed-dose combinations, once-a-day formulations, blister packs, and peer education and support);
 - ii. ensure prescribers' adherence to agreed treatment guidelines;
 - iii. monitor and contain drug resistance; and
 - iv. monitor adverse drug reactions according to existing international guidelines.

To help limit resistance to second-line tuberculosis Medicines and to be consistent with the policies of other international funding sources, all procurement of Medicines to treat multi-drug resistant tuberculosis financed under the Agreement must be conducted through the Green Light Committee of the Global Stop TB Partnership.

- (r) Price and Quality Reporting. Upon receipt in the country of Health Products purchased with Grant funds, the Principal Recipient shall promptly report to the Global Fund the prices it has paid for such Health Products and other information related to the quality of the Health Products, as specified in, and using the form of, the Price and Quality Reporting mechanism available on the website of the Global Fund.
- (s) Amendments to this Article. The Global Fund may, from time to time, change all or part of its policy for procurement of Health Products. Notwithstanding Article 31, these policy changes will be reflected through amendments to this Article which shall apply as of the date specified by the Global Fund. The Global Fund shall provide the Principal Recipient with reasonable notice of these policy changes.

Article 20. INSURANCE AND LIABILITY FOR LOSS, THEFT OR DAMAGE

- (a) Insurance. The Principal Recipient shall maintain, where available at a reasonable cost, all risk property insurance on Program assets and comprehensive general liability insurance with financially sound and reputable insurance companies. The insurance coverage shall be consistent with that held by similar entities engaged in comparable activities.
- (b) Responsibility for Loss or Theft. The Principal Recipient shall be solely liable for the loss or theft of, or damage to any and all items purchased with Grant funds (including those in the possession of Sub-recipients), and, immediately upon any such loss, theft or damage, shall replace such items at its own expense in compliance with the procurement requirements set forth in Article 18 and Article 19 of this Agreement. In addition, the Principal Recipient shall be solely liable for the loss or theft of any cash in the possession of the Principal Recipient or any of its agents or Sub-recipients and shall have no recourse to the Global Fund for any such loss or theft.

Article 21. CONFLICTS OF INTEREST; ANTI-CORRUPTION

- (a) Standards of Conduct. The Principal Recipient shall maintain and enforce standards of conduct to govern the performance of persons affiliated with the Principal Recipient or any Sub-recipient (for example, directors, officers, employees or agents) engaged in the award and administration of contracts, grants, or other benefits using Grant funds to ensure that such persons do not engage in any practice set forth in paragraph (b) below.
- (b) No corruption. The Principal Recipient shall not, and shall ensure that no Sub-recipient or person affiliated with the Principal Recipient or any Sub-recipient:
- i. participate(s) in the selection, award or administration of a contract, grant or other benefit or transaction funded by the Grant, in which the person, members of the person's immediate family or his or her business partners, or organizations controlled by or substantially involving such person, has or have a financial interest;
 - ii. participate(s) in transactions involving organizations or entities with which or whom that person is negotiating or has any arrangement concerning prospective employment;
 - iii. offer(s), give(s), solicit(s) or receive(s), directly or indirectly, gratuities, favors, gifts or anything else of value to influence the action of any person involved in the procurement process or contract execution;
 - iv. misrepresents or omits facts in order to influence the procurement process or the execution of a contract;
 - v. engage(s) in a scheme or arrangement between two or more bidders, with or without the knowledge of the Principal Recipient or Sub-recipient, designed to establish bid prices at artificial, non-competitive levels; or
 - vi. participate(s) in any other practice that is or could be construed as an illegal or corrupt practice in the Host Country.
- (c) Disclosure. If the Principal Recipient has knowledge or becomes aware of any:
- i. actual, apparent or potential conflict between the financial interests of any person affiliated with the Principal Recipient, any Sub-recipient, the CCM, the LFA, or the Global Fund and that person's duties with respect to the implementation of the Program; or

the Principal Recipient shall immediately disclose the actual, apparent or potential conflict of interest directly to the Global Fund.

Article 22. USE OF LOGOS OR TRADEMARKS

Use of Global Fund's Logo and Trademarks. The Principal Recipient shall not, and shall require that its Sub-recipients do not use the logo or any trademarks of the Global Fund unless the Principal Recipient and its Sub-recipients have respectively executed valid license agreements with the Global Fund for such use.

The substitution shall occur on such terms and conditions as the Global Fund and the New Principal Recipient agree, in consultation with the CCM. The Principal Recipient shall cooperate fully with the Global Fund and the CCM to facilitate the transfer.

ANNEX A to the PROGRAM GRANT AGREEMENT

Program Implementation Description

Country:	Republic of Peru
Program Title:	Making A Difference: Promoting a Wide-Ranging, Integral Response to Tuberculosis in Peru
Grant Number:	PER-809-G07-T
Disease:	Tuberculosis
Principal Recipient:	Ministry of Health (Unidad Ejecutora 123 – PARSALUD)

Capitalized terms and acronyms used but not defined in this Annex A or the attachments to this Annex A have the meaning given to them in the Standard Terms and Conditions of this Agreement.

In the event of any conflict between the terms of this Annex A and any provision of the Standard Terms and Conditions of this Agreement, the terms of this Annex A shall prevail.

A. PROGRAM DESCRIPTION

1. Background and Summary:

During the past four years (2005-2009) Peru has developed a more comprehensive response to multi-drug resistant tuberculosis (MDR-TB), increasing early diagnosis conditions and access to free, efficient medical treatment, thus complementing the DOTS strategy response to simple TB. The state has gradually incorporated the funding for the medical treatment of MDR-TB, thus improving the treatment's compliance and efficacy. The current Program complements these efforts as it seeks to strengthen a preventive response among both the general public and the most vulnerable populations with early diagnosis for TB, MDR-TB, and extensively drug-resistant tuberculosis (XDR-TB), as well as improve compliance and the efficacy of the treatment, provide access to complete treatment for TB-MDR/XDR and complete social support to the XDR patients.

Therefore, the purpose of the Program is to complement the activities that are currently underway in Peru to fight against simple and MDR-TB in the country through escalating the promotional and preventative activities, standardizing access to the complete diagnosis, treatment and support of those affected, and strengthening the participation of the community in the complete, sustainable national multisectorial response.

2. Goal:

To contribute to the universal prevention access to the general and highly vulnerable populations, as well as universalize the care, treatment and complete support for those affected by TB, MDR-TB and XDR-TB with a focus on social inclusion, interculturality and human development.

3. Target Groups/Beneficiaries:

- Children, adolescents and young people;
- University students; and

- MDR-TB and XDR-TB patients and their families.

4. Strategies:

- The Principal Recipient, together with the National TB Programme, the National Health Institute and the Ministry of Health, will scale-up TB activities implemented in the Global Fund-funded Round 2 and 5 TB programs focusing on activities benefitting MDR-TB and XDR-TB patients.
- The National Health Programme will focus on scaling-up infection control activities, the improvement of diagnosis and the Practical Approach to Lung Health (PAL) strategy and the provision of care and support to MDR-TB and XDR-TB patients (psycho-emotional, adverse reactions and surgery).
- The National Health Institute and the Ministry of Health will focus on strengthening the laboratory network of the whole country and the quality assurance of the tests undertaken, including a sample transport system.
- The Principal Recipient will also coordinate actions with the principal recipients of other Global Fund-funded programs in Peru and with Pathfinder, the civil society principal recipient for the Round 8 TB program.

5. Planned Activities:

- Improvement of the bio-safety of the health centers;
- Improvement of the impact of TB treatment in vulnerable populations through a research study undertaken during Year 1 and training of health personnel;
- Improvement of PAL strategies in health centers through a study, training of health personnel and upgrading health equipment;
- Improvement of the laboratory network by upgrading the equipment and the IT system, establishing a quality sample transport system and training of health personnel; and
- Scaling-up care and support to MDR-TB and XDR-TB patients by providing psycho-emotional support and drugs, surgery and support in case of adverse reaction to drugs, and training to health personnel.
